## Professional Summary

---

Motivated and technically inclined Full-Stack Developer with a solid foundation in modern web development practices and scalable architecture. Proficient in JavaScript, TypeScript, React.js, and Next.js for building fast, SEO-friendly front-end applications. Skilled in backend technologies such as Node.js, Express.js, and MongoDB, with exposure to RESTful API development and server-side rendering. Familiar with basic cloud platforms like Firebase and Vercel for deployment and CI/CD workflows. Strong problem-solving skills and a keen interest in writing clean, maintainable code while contributing effectively to agile development teams.

## Skills

---

- **Languages & Frameworks:** JavaScript , Typescript , Next js , React js , Express js , solidity , Python , FastApi
- **Others:** REST APIs, Firebase, Tailwind CSS, Web3.js, Ethers.js

## Education

---

ABES Engineering College , AKTU

Sept 2023 – May 2027

Bachelor in Computer Science and Engineering

## Projects

---

### Flashmon -A CLI Tool - GitHub

- A lightweight CLI tool for auto-reloading Node.js applications on file changes, similar to Nodemon but with improved performance and cleaner logging. Built with Node.js and the chokidar file watcher. Supports custom commands, debounce handling, and configurable watch paths.
- Tools Used: Typescript , Node.js, Commander.js, Chokidar, Chalk, child process

### DePIN Uptime Monitor App - GitHub

- A monitoring and rewards system for decentralized validators. It continuously tracks the uptime of network nodes, logs performance data, and automates payouts to validators who maintain high availability. I designed and built the system end-to-end, including uptime tracking logic, performance evaluation, and on-chain reward execution.
- Tools Used: Next.js , PostgreSQL, Solana (web3.js), Cron jobs, Docker, Webhooks, Git.

### Events Flow - GitHub

- A full-stack event management platform for creating, listing, and registering for events with integrated online payments. Supports event publishing, user registration, and real-time payment status via Razorpay.
- Tools Used: Typescript , Next.js , Razorpay

## Achievements

---

- **Winner**, Ardethon Hackathon 2024 – Project Curetica
- **Winner**, Internal club Hackathon 2024 – Project StudyAid
- **2nd Runner-up**, BuildWithIndia Hackathon 2024

## Certifications

---

- The Complete Web Developer Bootcamp Udemy, Oct 2024 – Dec 2024
- Ethereum Blockchain Developer Bootcamp LearnWeb3.io , Jan 2025 – Feb 2025
